Virtual Show:

RSNC has made a sample show for producers to learn the RSNC Software, please try this so that you can become familiar with the software before your show. All the information for the virtual show is provided for you as well as results for you to compare to your results.

This virtual show does not account for some of the things you may encounter at your show so it is recommended to run a virtual show created by yourself with the Automatic Draw added. Please remember that this is a quick introduction to the software. More detailed instructions will be on the Quick Start Guide.

On the next page you will find the Virtual show flyer. Use this flyer to create your Virtual show.

Sending required items to the RSNC HQ office after your show:

The required files from your Virtual show should be emailed to info@rsnc.us a minimum of 2 weeks prior to your first actual show so that we can verify you have practiced with the software and will be able to utilize it for your show effectively as well as send in the correct files after your show. The process for generating the required files and sending these files is covered below.

After you have pressed the "Finals Class Results" button for each of the classes you held, go to the Main Menu screen of the software and make sure the correct show date appears at the top of the screen then press the "RSNC Show File" button. This will create the Database file, the EquiStat Report and the Summary file that will all need to be emailed to info@rsnc.us as email attachments. These 3 files will be found in the RSNC Show folder on your c:\drive. Be sure to select the files with the correct date of your show to attach to your email as all show files from your previous shows will also be located in this same folder. This can be done immediately after you have closed out your show and before you put your computer away so that your files can be processed and results/points posted on the RSNC website efficiently. If you do not have internet on the computer that your show was run on, simply save the 3 required files to a flash drive or thumb drive and email them from a computer that does have internet access to info@rsnc.us.

All membership forms & fees, horse earnings tracking request forms & fees and sanctioning fees can then be dropped in the mail and sent to:

RSNC HQ
PO Box 1
Wellington, CO 80549

These items should be received by the RSNC HQ office within 5 days of your show.

Conclusion:

As stated at the beginning, RSNC has made this sample show as a quick introduction to the RSNC software, for producers and show staff. By utilizing this training tool before your show, it will help the producer and show staff to be more confident in running a successful show.

Remember, this virtual show does not account for the auto draw because that is a random draw that would change the duplication process that you are trying to achieve through our virtual show. Therefore, it is recommended to run a virtual show created by yourself with the Automatic Draw added. If necessary, more detailed instructions will be on the Quick Start Guide.

If you have any questions or difficulties at all, please be sure to contact the RSNC HQ office at 970-897-2901 or any one of the software support team members:
