Changing Lives. Building Futures.

The Centers for Disease Control states that, sadly, the prevalence of autism has increased to now affecting 1 child in 59.

For more than 40 years, the Autism Treatment Center has assisted individuals with autism throughout their lives as they learn, play, work and live in the community. By providing a lifetime of services and support 24/7/365, ATC is changing lives and building brighter futures for children and adults with autism.
